IELTS Writing Task 2 — Model Answers

Chapter 02 · Technology & Internet · 19 IELTS Liz Questions

Band 7+ sample essays · Every essay follows its essay-type guide · PEEL(R) paragraphs · Ideas and sentences from your Technology Idea Bank

How to Use This Sheet

এই sheet কীভাবে পড়বে

1. প্রথমে প্রশ্নটি পড়ো এবং **নিজে 5 মিনিটে একটি পরিকল্পনা করো** (Idea Bank Part 2 পদ্ধতিতে)। তারপর model answer-এর "Plan" box-এর সাথে মিলিয়ে দেখো।
2. Model essay পড়ার সময় রঙিন label-গুলো লক্ষ করো — প্রতিটি body paragraph কীভাবে **Point → Explain → Example → Link** ধাপে এগোয়।
3. **Bold** করা collocation-গুলো তোমার Technology Idea Bank-এর Part 4 থেকে নেওয়া — এগুলো খাতায় লিখে নিজের বাক্যে ব্যবহার করো।
4. প্রতিদিন 2–3টি essay পড়ো। একটি essay বেছে নিয়ে, model না দেখে, নিজের ভাষায় আবার লেখো (40 মিনিট)।
5. প্রতিটি essay-র শব্দসংখ্যা দেওয়া আছে। Advantages & Disadvantages essay-গুলো আলাদা guide মেনে লেখা: **Intro 40–50 · BP1 120–135 · BP2 120–135 · Conclusion 35–45 = 330–360**; মতামত না চাইলে (Type 1) **Intro 30–40 · Conclusion 25–35 = 310–340**। Agree / Disagree essay-গুলো আলাদা guide মেনে লেখা: **Intro 35–50 · BP1 100–120 · BP2 100–120 · Conclusion 35–55 = 270–345**। Discuss Both Views essay-গুলো আলাদা guide মেনে লেখা: **Intro 35–45 · BP1 90–120 · BP2 90–120 · Conclusion 35–45 = 260–299**। Cause/Problem + Solution essay-গুলো আলাদা guide মেনে লেখা: **Intro 30–40 · BP1 90–120 · BP2 90–120 · Conclusion 30–40 = 260–300**। Double Question essay-গুলো আলাদা

guide মেনে লেখা: **Intro 30–40 · BP1 90–120 · BP2 90–120 · Conclusion 30–40 = 260–300**।

6. Part 6-এর বাংলা essay (TEC-02, TEC-07, TEC-03) অনুবাদ করে থাকলে, এখানকার model-এর সাথে তোমার অনুবাদ মিলিয়ে দেখো। এই বাংলা essay-গুলো এখানকার English model-এর অনুবাদ হিসেবে লেখা, তাই একই কাঠামো ও একই idea পাবে।

হালকা সবুজ দাগ দেওয়া বাক্য = তোমার Technology Idea Bank থেকে হুবহু বা প্রায় হুবহু নেওয়া। এই sheet-এ মোট **78টি** এমন বাক্য আছে। এগুলো তুমি আগেই পড়েছ, তাই পড়তে কম সময় লাগবে — আর দেখবে, Idea Bank-এর বাক্যগুলো সরাসরি essay-তে ব্যবহার করা যায়। পরীক্ষায় তুমিও ঠিক এভাবে নিজের মুখস্থ করা বাক্য ব্যবহার করতে পারবে।

The PEEL(R) paragraph method

Label	Meaning	What the sentence does	Typical linkers
Point	Topic sentence	States the main idea of the paragraph	The main reason… / Firstly… / However, I believe…
Explain	Explanation	Says **why** or **how** the point is true (often 2–3 sentences)	This is because… / Since… / As a result…
Example	Example	Gives a specific, realistic example	For example… / For instance… / In Bangladesh…

Label	Meaning	What the sentence does	Typical linkers
Link	Link / result	Connects back to the question or shows the result	Therefore… / As a result… / In this way…
Response	Response to the other side	Admits the opposite view, then answers it (the **R** in PEELR)	Admittedly… / Although… / However, …
Topic	Topic sentence (Adv/Disadv only)	Opens the paragraph with a fixed sentence	There is little doubt that… / On the other hand, it cannot be denied that…
Summary	Summary (Adv/Disadv only)	Sums up the paragraph in general words	Overall, … / Although these…
Solution	Solution (Cause/Problem + Solution only)	Says who acts and what they do	The most effective solution is for… / In addition, …

> **PEEL বনাম PEELR:** সাধারণ body paragraph-এ **PEEL** যথেষ্ট। কিন্তু opinion বা discussion essay-তে যখন বিপরীত মতকে মেনে নিয়ে জবাব দিতে হয় ("Admittedly… However…"), তখন **R (Response)** যোগ করো — এতে লেখা আরও পরিণত ও যুক্তিপূর্ণ দেখায়, যা Band 7-এর জন্য গুরুত্বপূর্ণ।

> **Advantages & Disadvantages essay (6টি) — নতুন নির্দিষ্ট কাঠামো** (IELTS_Advantages_Disadvantages_Essay_Guide.md

অনুযায়ী):

- **Introduction:** প্রশ্নের paraphrase → **Although** + যে দিক তুমি সমর্থন করো না (2 point), + যে দিক তুমি সমর্থন করো (2 point), but ছাড়া → মতামত (শুধু প্রশ্ন মতামত চাইলে)।
- **Body 1 = সুবিধা, Body 2 = অসুবিধা — প্রতিটিতে ঠিক 7টি বাক্য:** Topic → Point → Explain → Example → Point → Explain → Summary ।
- **Body 1 linker:** There is little doubt that... → To begin with → This is because → For example → In addition → As a result → Overall।
- **Body 2 linker:** On the other hand, it cannot be denied that... → Firstly → "; as a result," → For instance → Secondly → If... consequently → শেষ বাক্য: Type 1 হলে Overall, these...; সুবিধার পক্ষে হলে Although these [problems]..., most...; অসুবিধার পক্ষে হলে Although some [people]..., these [problems] often...।
- **Conclusion:** In conclusion + নতুন paraphrase → **While** + দুই দিক, Although বাক্যের একই ক্রমে → মতামত আবার বলো (শুধু প্রশ্ন মতামত চাইলে)।
- 🚫 **প্রশ্ন মতামত না চাইলে (Type 1):** Introduction ও Conclusion-এ মাত্র **2টি বাক্য**। মতামত লিখবে না, আর "This essay will examine both the benefits and the drawbacks..." ধরনের plan sentence-ও লিখবে না — এটি মুখস্থ করা বাক্য মনে হয় এবং নতুন কোনো idea যোগ করে না। Introduction শেষ হবে Although বাক্যে, essay শেষ হবে While বাক্যে।
- ⭐ **Emphasis rule:** Although/While বাক্যে পাঠক সবসময় **শেষের idea (comma-র পরের অংশ)**-কে তোমার মত হিসেবে ধরে। তাই সুবিধার পক্ষে হলে আগে অসুবিধা, পরে সুবিধা; অসুবিধার

পক্ষে হলে আগে সুবিধা, পরে অসুবিধা। Type 1-এ (মতামত নেই) সাধারণত আগে অসুবিধা, পরে সুবিধা।

Agree / Disagree essay (7টি) — নতুন নির্দিষ্ট কাঠামো (IELTS_Agree_Disagree_Essay_Guide.md অনুযায়ী):

- 🚫 **কখনো আংশিক উত্তর নয়:** শুরু থেকে শেষ পর্যন্ত একটিই পক্ষ। "partly agree", "largely agree", "to some extent" লিখবে না।
- **Introduction (2টি বাক্য):** প্রশ্নের paraphrase → I completely agree/disagree with this view because + Idea 1 + Idea 2।
- **Body 1 = Idea 1:** Point → Explain → Explain → Example → Link ।
- **Body 1 linker:** The main reason why I agree/disagree with this idea is that… → This is because… → "; as a result," → For example… → Therefore…।
- **Body 2 = Idea 2:** Point → Explain → Example → Response → Link ।
- **Body 2 linker:** Another important reason for my agreement/disagreement is that… → When… → For instance… → Although some people argue that…, [তোমার পক্ষ] → Consequently…।
- **Conclusion (2টি বাক্য):** In conclusion, I firmly believe that… → Idea 1 ও Idea 2 নতুন শব্দে। নতুন কোনো idea নয়।
- ⭐ **Response বাক্য:** বিপরীত মত থাকবে Although অংশে, আর তোমার পক্ষ থাকবে comma-র পরে, but ছাড়া। তাই উত্তর আংশিক হয় না।

Discuss Both Views essay (2টি) — নতুন নির্দিষ্ট কাঠামো (IELTS_Discuss_Both_Views_Essay_Guide.md অনুযায়ী):

- 🚫 **কখনো আংশিক উত্তর নয়:** একটিই স্পষ্ট মত। "both views are important", "it depends" লিখবে না।
- ⭐ **Order rule:** বিপরীত মত সবসময় আগে, তোমার মত সবসময় শেষে। তাই "the latter view" সবসময় তোমার পক্ষকেই বোঝায়।
- **Introduction:** While some people argue that [বিপরীত মত], others believe that [তোমার মত]. → I completely support the latter view because [মূল কারণ].
- **Body 1 = বিপরীত মত ("I" ছাড়া):** Point → Explain → Explain → Example → Link ।
- **Body 1 linker:** On the one hand, people who… argue that… → For example… → For this reason, many people believe that…।
- **Body 2 = তোমার মত:** Point → Explain → Example → Response → Link ।
- **Body 2 linker:** On the other hand, I firmly believe that… because… → For instance… → Although some people argue that [Body 1-এর যুক্তি], [তোমার পক্ষ] → Consequently…।
- **Conclusion (2টি বাক্য):** In conclusion, people hold different views on whether… → While [বিপরীত মত], I firmly believe that [তোমার মত] because [কারণ]।
- **শব্দসংখ্যা:** সবসময় 300-এর নিচে। সহজ হিসাব: 40 + 100 + 100 + 40 = 280।

Cause/Problem + Solution essay (3টি) — নতুন নির্দিষ্ট কাঠামো (IELTS_Cause_Problem_Solution_Essay_Guide.md অনুযায়ী):

- ⭐ **ধরন চেনো:** শুধু প্রথম প্রশ্নটি দেখো। কেন ঘটছে জানতে চাইলে **Cause essay**, কী ক্ষতি হচ্ছে জানতে চাইলে **Problem essay**।

প্রশ্নে "this problem" থাকলেই সেটি Problem essay হয় না।

- 🚫 **মতামত নয়:** প্রশ্ন না চাইলে "I think" বা "In my opinion" লিখবে না। "This essay will..." বাক্যও লিখবে না।
- **Introduction (2টি বাক্য):** paraphrase → 2টি কারণ বা সমস্যা, but + 2টি সমাধান।
- **Body 1 = 2টি কারণ বা সমস্যা:** Point → Explain → Example → Point → Explain → Link ।
- **Body 2 = 2টি সমাধান:** Solution → Explain → Example → Solution → Explain → Link ।
- ⭐ **Mirror rule:** সমাধান 1 ঠিক করে কারণ বা সমস্যা 1, সমাধান 2 ঠিক করে কারণ বা সমস্যা 2। প্রতিটি সমাধানে থাকবে কে করবে, কী করবে, আর তাতে কীভাবে কাজ হবে (WHO + WHAT + HOW)।
- **Conclusion (2টি বাক্য):** কারণ বা সমস্যা নতুন শব্দে → সমাধান নতুন শব্দে + চূড়ান্ত ফল। নতুন কোনো idea নয়।
- **শব্দসংখ্যা:** সহজ হিসাব: 35 + 105 + 105 + 35 = 280।
- **একই পরিবারের অন্য প্রশ্ন (guide Section 14):** শুধু সমাধান, দুই পক্ষের সমাধান, বা শুধু সমস্যা চাইলে প্রতিটি body paragraph-এ একটিই idea: Point / Solution → Explain → Explain → Example → Link । মতামত নয়।

Double Question essay (1টি) — নতুন নির্দিষ্ট কাঠামো (IELTS_Double_Question_Essay_Guide.md অনুযায়ী):

- ⭐ **ভাগ করো:** Q1 যাবে Body 1-এ, Q2 যাবে Body 2-এ, প্রশ্নের ক্রমেই। প্রতিটি প্রশ্ন আলাদা করে পরীক্ষা করো।
- **পক্ষ বেছে নিতে হলে (হ্যাঁ/না, ভালো/খারাপ) = Opinion block:** Point (I firmly believe that... because...) → Explain →

Example → Response (Although some people argue that...) → Link (Therefore...)। Body 2-তে শুরু: As for whether...

- **কেন / কী / কীভাবে জানতে চাইলে = List block (2টি idea):** Point → Explain → Example → Point → Explain → Link (Consequently... / Together, these measures would...)। সমাধান হলে Point-এর জায়গায় Solution । List block-এ "I" লিখবে না।
- ⭐ **"do you think" ফাঁদ:** প্রশ্নের প্রথম শব্দ দেখো। *Why do you think...?* আসলে কারণ চায় (List), মত নয়।
- ⭐ **"other" ফাঁদ:** প্রশ্নে *other* থাকলে প্রশ্নে দেওয়া idea বাদ দিয়ে নতুন idea লেখো।
- **Introduction (2টি বাক্য):** paraphrase → [উত্তর 1], and [উত্তর 2]। মতের কারণ Introduction-এ নয়, Opinion block-এর শুরুতে।
- **Conclusion (2টি বাক্য):** In conclusion, [উত্তর 1 নতুন শব্দে]. [উত্তর 2 নতুন শব্দে]. কোনো প্রশ্নই মত না চাইলে (List + List) কোথাও "I" নয়।
- **শব্দসংখ্যা:** সহজ হিসাব: 35 + 105 + 105 + 35 = 280।

Model Answers

1. TEC-01 — Machines doing household tasks

Many things that used to be done in the home by hand are now being done by machines. Does this development bring more advantages or disadvantages?

Essay type	Advantages vs Disadvantages — Type 3 (more advantages or disadvantages?)
Position	This development brings more benefits than drawbacks.
Ideas from Idea Bank (Part 3)	Technology and Modern Lifestyle · Technology and the Environment
Structure	Adv/Disadv guide: Although-intro → BP1 advantages (7 sentences) → BP2 disadvantages (7 sentences) → While-conclusion
Reused from Idea Bank	7 sentences (highlighted)
Word count	Intro 49 · BP1 134 · BP2 131 · Conclusion 41 · **Total 355**

Introduction · 49 words

In many homes today, tasks once done by hand, such as washing and cooking, are performed by machines. Although this change can encourage inactivity and create **electronic waste**, it also saves time and gives women more opportunities to work. In my view, this development brings more benefits than drawbacks.

Body Paragraph 1 · 134 words

Topic There is little doubt that household machines offer considerable advantages to modern families. Point To begin with, household machines have **saved a great deal of time** that was once spent washing clothes by hand, cleaning and cooking. Explain This is because a washing machine can do in minutes what once took hours of hard work. Example For example, a mother who once spent her whole morning on laundry can now finish it in an hour, which leaves time for her children. Point In addition, this has been particularly important for women in many societies, who traditionally did most of the housework. Explain As a result of this free time, women can study, work outside the home and **pursue a career**, which raises family income. Summary Overall, household technology makes daily life easier and gives families more control over their time.

Body Paragraph 2 · 131 words

Topic On the other hand, it cannot be denied that household machines also have some drawbacks. Point Firstly, because so many tasks no longer require physical effort, many people now **lead a sedentary lifestyle**. Explain Without hard housework, they burn fewer calories; as a result, the risk of obesity, back pain and heart disease increases. Example For instance, a family that relies on machines for every task may hardly move all day, which can lead to weight gain. Point Secondly, **electronic waste** can be a serious problem, as old devices are often thrown away rather than repaired or recycled. Explain If old fridges and washing machines end up in landfill, harmful chemicals can **contaminate soil and water** and, consequently,

harm people's health. Summary Although these health and environmental problems are real, exercise and proper recycling can reduce them.

Conclusion · 41 words

In conclusion, machines now do much of the housework once done by hand. While they may encourage inactivity and add to electronic waste, they save precious time and allow women to build careers. Overall, I believe this is a positive development.

2. TEC-02 — Mobile phones and social interaction

Some people argue that technological inventions, such as mobile phones, are making people socially less interactive. Do you agree or disagree?

Essay type	Agree / Disagree
Position	I completely agree.
Ideas from Idea Bank (Part 3)	Technology and Communication · Technology and Modern Lifestyle
Structure	Agree/Disagree guide: Opinion + 2 ideas → BP1 Idea 1 (P E E X L) → BP2 Idea 2 (P E X R L) → Opinion + 2 ideas in new words
Reused from Idea Bank	6 sentences (highlighted)
Word count	Intro 42 · BP1 109 · BP2 117 · Conclusion 40 · **Total 308**

Introduction · 42 words

It is often argued that modern inventions, such as mobile phones, are reducing the amount of real contact that people have with each other. I completely agree with this view because these devices replace real conversation and weaken young people's social skills.

Body Paragraph 1 · 109 words

Point The main reason why I agree with this idea is that mobile phones reduce **face-to-face interaction** at home and among friends. Explain This is because many people now prefer sending a

message to having a conversation, and it is common to see friends sitting together while each person looks at their own phone. Explain Parents may be answering work emails while children watch videos; as a result, meaningful conversation becomes rare. Example For example, a family may eat dinner in the same room while each person reads a separate screen, and parents may not even notice when their children are facing problems. Link Therefore, over time, this can **weaken family bonds** and friendships.

Body Paragraph 2 · 117 words

Point Another important reason for my agreement is that phones weaken young people's social skills. Explain When teenagers communicate mainly by message, their conversations are often short and shallow, and young people in particular may not develop the confidence to speak, listen and **read body language** in real situations. Example For instance, a teenager who chats online for hours may feel nervous during a job interview, which can harm their future career. Response Although some people argue that a worker who has moved abroad can see and talk to their children every evening through a video call, this does not help people who ignore those beside them. Link Consequently, phones are making people less interactive in the daily situations that matter most.

Conclusion · 40 words

In conclusion, I firmly believe that inventions such as smartphones are making human beings less socially active. Screens are taking the

place of real talk between friends and relatives, and they also leave the younger generation less confident in person.

3. TEC-03 — Technology in the workplace

Modern technology is now very common in most workplaces. How do you think this has changed the way we work? Do you think there are disadvantages to relying too much on technology?

Essay type	Double Question — List + Opinion (changes + opinion)
Position	Work has become faster and less tied to one place; relying too much on technology does bring serious disadvantages.
Ideas from Idea Bank (Part 3)	Technology, Business and the Economy · Technology and Employment · Technology, Privacy and Security
Structure	Double Question guide (List + Opinion): Answer 1 + answer 2 → BP1 = Q1, List block (P E X P E L) → BP2 = Q2, Opinion block (P E X R L) → Both answers in new words
Reused from Idea Bank	3 sentences (highlighted)
Word count	Intro 32 · BP1 100 · BP2 105 · Conclusion 33 · **Total 270**

Introduction · 32 words

Modern technology has become a normal part of almost every workplace. It has made work faster and more flexible, and I firmly believe that relying on it too heavily brings serious disadvantages.

Body Paragraph 1 · 100 words

Point One of the main ways in which technology has changed work is that tasks are now completed much faster. Explain Machines and

software can complete repetitive tasks faster and more accurately than people. Example For example, accounting software can process thousands of payments in a few minutes, a task that once took several workers many days. Point Another important change is that work is no longer limited by place. Explain Business meetings increasingly take place online, which saves time and travel costs and allows companies to work with partners in other countries. Link Consequently, work has become faster, cheaper and far more flexible than before.

Body Paragraph 2 · 105 words

Point As for whether relying too much on technology has disadvantages, I firmly believe that it does because a single system failure can stop an entire organisation. Explain When computer systems crash or are hacked, staff cannot open their files, serve customers or even communicate with each other. Example For instance, a hospital whose computers are locked by hackers may have to delay operations, which puts patients' lives at risk. Response Although some people argue that technology makes every task easier, workers who depend completely on software may not know how to cope when it fails. Link Therefore, companies should never depend on technology without backup systems and well-trained staff.

Conclusion · 33 words

In conclusion, technology has made modern work quicker and less tied to one location. I firmly believe that over-reliance on it is risky because system failures can bring work to a sudden stop.

4. TEC-04 — Technology and the gap between rich and poor

Some people think that the range of technology currently available is increasing the gap between rich people and poor people. Others think that it is causing the opposite effect. Discuss both views and give your opinion.

Essay type	Discussion (both views + opinion)
Position	Technology is narrowing the gap between rich and poor.
Ideas from Idea Bank (Part 3)	Technology, Business and the Economy · Technology and Education
Structure	Discuss Both Views guide: Both views + clean opinion → BP1 the other view (P E E X L) → BP2 my view (P E X R L) → Both themes + opinion in new words
Reused from Idea Bank	4 sentences (highlighted)
Word count	Intro 37 · BP1 100 · BP2 119 · Conclusion 42 · **Total 298**

Introduction · 37 words

While some people argue that modern technology is widening the gap between rich and poor, others believe that it is narrowing this gap. I completely support the latter view because cheap devices give low-income people new opportunities.

Body Paragraph 1 · 100 words

Point On the one hand, people who believe that the gap is growing argue that people and countries that own advanced technology, skills and capital tend to benefit the most. Explain Workers in routine jobs may lose their income, while the profits go mainly to company owners and highly skilled employees. Explain Routine tasks are increasingly performed by machines; as a result, poorer workers fall further behind. Example For example, a factory owner who installs robots may become richer, while replaced workers struggle to find new jobs, and this makes inequality worse. Link For this reason, many people believe that technology mainly helps the wealthy.

Body Paragraph 2 · 119 words

Point On the other hand, I firmly believe that technology is narrowing the gap because cheap smartphones and mobile banking have helped many low-income people in developing countries to earn and save. Explain When a person can reach customers through a phone, they no longer need a shop or large savings, and their income can grow quickly. Example For instance, a small entrepreneur can open an online store or a social media page and sell products across the country, which was once possible only for large companies. Response Although some people argue that machines take jobs from poor workers, a mobile phone now gives many people a new chance to earn money. Link Consequently, modern technology is helping ordinary people to improve their lives.

Conclusion · 42 words

In conclusion, people hold different views on whether modern technology widens or reduces the gap between rich and poor. While machines can replace some workers, I firmly believe that the gap is narrowing because low-cost devices create new ways to earn money.

5. TEC-05 — Working mothers and household appliances

New household appliances have resulted in more free time for women and have enabled them to both work and run a home with dependent children. What are the advantages for a family when the mother works? Do you think the disadvantages outweigh the advantages?

Essay type	Advantages vs Disadvantages — Type 2 (outweigh)
Position	The advantages clearly outweigh the disadvantages. The question asks for the advantages and then asks whether the disadvantages outweigh them, so it has the same shape as FOO-12 and FAM-08.
Ideas from Idea Bank (Part 3)	Technology and Modern Lifestyle · Technology and Employment
Structure	Adv/Disadv guide: Although-intro → BP1 advantages (7 sentences) → BP2 disadvantages (7 sentences) → While-conclusion
Reused from Idea Bank	0 sentences (highlighted)
Word count	Intro 45 · BP1 132 · BP2 130 · Conclusion 40 · **Total 347**

Introduction · 45 words

Modern household appliances have given many mothers the time to work while raising children. Although working mothers may have less time at home and a heavier workload, they bring extra income

and a positive role model. In my opinion, the advantages clearly outweigh the disadvantages.

Body Paragraph 1 · 132 words

Topic There is little doubt that a working mother offers considerable advantages to her family. Point To begin with, the most obvious benefit is a second income, which raises the family's standard of living. Explain This is because two salaries can pay for better food, housing, education and healthcare, which one salary often cannot cover. Example For example, a mother who works as a teacher can help to pay her children's university fees, so they do not have to leave their studies early. Point In addition, a working mother is not only a financial support but also a positive **role model** for her children. Explain As a result of seeing her succeed, daughters learn that women can build careers, while sons learn to respect women's work. Summary Overall, a mother's job strengthens both the family's finances and its values.

Body Paragraph 2 · 130 words

Topic On the other hand, it cannot be denied that a mother's job also has some drawbacks. Point Firstly, she may have less time to spend with her children during the day. Explain Young children may spend long hours with relatives or carers; as a result, they may miss their mother's attention at important moments. Example For instance, a mother who works until the evening may miss her child's school prize-giving, which can leave the child feeling disappointed. Point Secondly, many women face a **double burden**, as they do paid work during the day and most of the housework at night. Explain If

nobody shares these tasks, the mother may become exhausted and, consequently, her health and patience may suffer. Summary Although these problems are real, they become much smaller when fathers share housework and childcare equally.

Conclusion · 40 words

In conclusion, many mothers now combine paid work with family life. While this can reduce family time and double their workload, it raises the family's income and gives children an inspiring example. Therefore, I believe the benefits outweigh the drawbacks.

6. TEC-06 — Children in a technological world

With the development of technology children are now living in a world that is completely different to what it was 50 years ago. What problems does this cause for society and the family?

Essay type	Problems only (Cause/Problem + Solution guide, Section 14)
Position	No opinion is asked for. Technology weakens family relationships and creates new dangers to children's safety online.
Ideas from Idea Bank (Part 3)	Technology, Children and Screen Time · Technology and Modern Lifestyle
Structure	Cause/Problem + Solution guide, Section 14: both answers in one sentence → BP1 Problem 1 (P E E X L) → BP2 Problem 2 (P E E X L) → Same ideas in new words, no opinion
Reused from Idea Bank	5 sentences (highlighted)
Word count	Intro 32 · BP1 98 · BP2 103 · Conclusion 31 · **Total 264**

Introduction · 32 words

Children today are growing up in a world that is very different from the one their parents knew. This can lead to weaker family relationships and new dangers to children's safety online.

Body Paragraph 1 · 98 words

Point The most serious problem for families is that technology can weaken the relationship between parents and children. Explain It is now common to see a family sitting in the same room, with each person absorbed in a separate screen. Explain Parents may also struggle to understand the games, apps and websites that fill their children's online world, which creates a **generation gap**. Example For example, a father who never uses social media may not realise that his daughter is being bullied online, so she may feel that she has nobody to turn to. Link Consequently, over time, this can **weaken family bonds**.

Body Paragraph 2 · 103 words

Point Another problem is that society faces new dangers to children's safety online. Explain Many children use the internet without adult supervision, and they may come across violent or adult content, or be contacted by strangers who pretend to be friends. Explain Parents often find it difficult to control their children's internet use, because children may be more skilled with technology than they are, and devices are easy to hide. Example For instance, a ten-year-old who secretly plays online games at midnight may be contacted by a stranger who pretends to be another child. Link Consequently, schools, the police and governments face new challenges in protecting young people.

Conclusion · 31 words

In conclusion, growing up surrounded by technology often weakens the bond between parents and children. It also exposes young people

to online risks that families, schools and governments must now manage.

7. TEC-07 — Meeting people online: closer or more isolated?

An increasing number of people are now using the internet to meet new people and socialise. Some people think this has brought people closer together while others think people are becoming more isolated. Discuss both sides and give your opinion.

Essay type	Discussion (both views + opinion)
Position	The internet has brought people closer together.
Ideas from Idea Bank (Part 3)	Technology, Society and Social Media · Technology and Communication
Structure	Discuss Both Views guide: Both views + clean opinion → BP1 the other view (P E E X L) → BP2 my view (P E X R L) → Both themes + opinion in new words
Reused from Idea Bank	5 sentences (highlighted)
Word count	Intro 36 · BP1 97 · BP2 114 · Conclusion 42 · **Total 289**

Introduction · 36 words

While some people argue that using the internet to socialise makes people more isolated, others believe that it brings them closer together. I completely support the latter view because online contact often leads to real friendships.

Body Paragraph 1 · 97 words

Point On the one hand, people who see the internet as isolating argue that online relationships are often superficial. Explain Many people spend several hours a day online without noticing, time that could be used for study, exercise, sleep or face-to-face relationships. Explain Real conversations are slowly replaced by messages; as a result, users may feel lonely even with many online friends. Example For example, a teenager who chats with strangers late at night may rarely talk to their own family, and this can lead to loneliness. Link For this reason, many people believe that the internet is making people **more isolated**.

Body Paragraph 2 · 114 words

Point On the other hand, I firmly believe that the internet brings people closer because someone who feels isolated in their town can find others who share the same hobby, illness or life experience. Explain When people find such groups, they receive advice and emotional support, and friendships are no longer limited by geography. Example For instance, a young mother who has moved to a new city can join an online parents' group and later meet other mothers in real life, which makes a new home less lonely. Response Although some people argue that online contact is superficial, it is often the first step towards a real friendship. Link Consequently, the internet has become a powerful tool against loneliness.

Conclusion · 42 words

In conclusion, people hold different views on whether socialising online makes us closer or more isolated. While too much screen time

can harm relationships, I firmly believe that the internet brings people together because online contact helps them to form real friendships.

8. TEC-08 — Children using the internet unsupervised

More and more children are accessing the internet unsupervised and at a younger age. This can sometimes put children at risk. What problems do you think parents face when dealing with their children using the internet? How can this problem be solved?

Essay type	Problem and Solution
Position	Problems for parents: controlling children's internet use and not seeing the dangers. Solutions: clear household rules; open discussion and online safety lessons.
Ideas from Idea Bank (Part 3)	Technology, Children and Screen Time · Technology, Privacy and Security
Structure	Cause/Problem + Solution guide: 2 causes or problems + 2 solutions → BP1 (P E X P E L) → BP2, each solution fixing one point (N E X N E L) → Same ideas in new words
Reused from Idea Bank	5 sentences (highlighted)
Word count	Intro 38 · BP1 111 · BP2 111 · Conclusion 36 · **Total 296**

Introduction · 38 words

These days, children are going online alone at an increasingly young age, which can put them at risk. Parents often cannot control this use or see the dangers, but clear rules and open communication can reduce these difficulties.

Body Paragraph 1 · 111 words

Point The most serious problem is that parents often find it difficult to control their children's internet use. Explain This is because children may be more skilled with technology than they are, and devices are easy to hide. Example For example, a child who is better with technology can hide a tablet under the bed and stay online all night, and the parents may never find out. Point Another problem is that parents may not see the dangers online. Explain Many children use the internet without adult supervision, and they may come across violent or adult content, or be contacted by strangers who pretend to be friends. Link Consequently, children may face serious risks without anyone noticing.

Body Paragraph 2 · 111 words

Solution The most effective solution is for parents to **set clear limits** on how and where their children go online. Explain Keeping devices in shared family spaces rather than bedrooms makes them harder to hide, and parental control software can limit screen time. Example For instance, a child who must charge a tablet in the living room at night cannot stay online in secret, which gives the parents real control. Solution In addition, parents and schools could teach children about online dangers. Explain When parents talk openly with their children and schools teach online safety, children are more likely to recognise strangers and report anything worrying. Link Together, these measures would help parents to **protect children online**.

Conclusion · 36 words

In conclusion, parents struggle because children can hide their online activity and may meet dangers that adults cannot see. Firm household rules and honest discussion about internet safety would help families to keep young users safe.

9. TEC-09 — TV, video games and children's mental health

Nowadays children watch a lot of TV and play video games. However, some people think that these activities are not good for a child's mental health. To what extent do you agree or disagree?

Essay type	Agree / Disagree
Position	I completely agree.
Ideas from Idea Bank (Part 3)	Technology, Children and Screen Time
Structure	Agree/Disagree guide: Opinion + 2 ideas → BP1 Idea 1 (P E E X L) → BP2 Idea 2 (P E X R L) → Opinion + 2 ideas in new words
Reused from Idea Bank	4 sentences (highlighted)
Word count	Intro 41 · BP1 117 · BP2 113 · Conclusion 37 · **Total 308**

Introduction · 41 words

These days, children spend many hours in front of television and video games, and many believe that this harms their mental health. I completely agree with this view because these activities increase aggression and anxiety and they also disturb children's sleep.

Body Paragraph 1 · 117 words

Point The main reason why I agree with this idea is that too much screen entertainment can increase aggression and anxiety in young minds. Explain This is because violent games may make some children

more aggressive, and frightening programmes can leave them feeling worried long after they have finished watching. Explain Fast-moving videos and games give constant excitement; as a result, some children become restless and easily upset when they have to do something slower. Example For example, a child who plays a violent game for hours may start to shout at their family when they are told to stop, and this behaviour can damage relationships at home. Link Therefore, heavy use of these activities can seriously harm a child's emotional health.

Body Paragraph 2 · 113 words

Point Another important reason for my agreement is that screen time often disturbs children's sleep. Explain When children stay up to watch a programme or finish a game, they lose the rest that a growing mind needs, because using screens late at night can also **disturb sleep patterns**. Example For instance, a child who plays games until midnight may become irritable and anxious the next day, which makes school feel stressful and lowers their confidence. Response Although some people argue that educational apps, videos and online games can make learning enjoyable, many children choose entertainment instead of learning when nobody is watching them. Link Consequently, long hours of television and games can slowly damage a child's mental well-being.

Conclusion · 37 words

In conclusion, I firmly believe that television and video games are bad for the mental health of young people. They encourage aggressive

and anxious behaviour, and they also rob children of the deep rest that they need.

10. TEC-10 — Personal devices and family relationships

It is common nowadays for each member of the family to have their own piece of modern technology. Some people think this will lead to a breakdown in family relationships and communication. To what extent do you agree?

Essay type	Agree / Disagree
Position	I completely agree.
Ideas from Idea Bank (Part 3)	Technology and Modern Lifestyle · Technology and Communication
Structure	Agree/Disagree guide: Opinion + 2 ideas → BP1 Idea 1 (P E E X L) → BP2 Idea 2 (P E X R L) → Opinion + 2 ideas in new words
Reused from Idea Bank	4 sentences (highlighted)
Word count	Intro 45 · BP1 110 · BP2 118 · Conclusion 41 · **Total 314**

Introduction · 45 words

Nowadays, it has become normal for every person in a household to own a smartphone, tablet or laptop, and many believe that this damages family ties. I completely agree with this view because these devices reduce conversation at home and take away shared family time.

Body Paragraph 1 · 110 words

Point The main reason why I agree with this idea is that personal devices reduce the amount of real conversation between family members. Explain This is because people who are absorbed in a separate screen pay little attention to those around them, even when they are sitting in the same room. Explain Parents may be answering work emails while children watch videos; as a result, meaningful conversation becomes rare. Example For example, a teenager who spends every evening on a phone may never mention a problem at school, and the parents may only discover it when it has become serious. Link Therefore, the daily talks that keep families close are slowly disappearing from many homes.

Body Paragraph 2 · 118 words

Point Another important reason for my agreement is that individual devices leave family members with less time together. Explain When everyone can watch their own films and play their own games, people no longer need to share an activity, so **family bonds** weaken over time. Example For instance, a family in Dhaka that once watched television together after dinner may now scatter to different rooms as soon as the meal ends, which leaves children feeling distant from their parents. Response Although some people argue that technology helps relatives in different cities stay in contact, this benefit does little for family members who live under the same roof. Link Consequently, the home becomes a place where relatives live side by side but rarely connect.

Conclusion · 41 words

In conclusion, I firmly believe that giving each family member a personal device harms relationships and communication within the home. Smartphones and tablets limit everyday talking between parents and children, and they also replace the activities that relatives once enjoyed together.

11. COM-10 — Will face-to-face communication disappear?

With an increasing population communicating via the internet and text messaging, face-to-face communication will become a thing of the past. To what extent do you agree?

Essay type	Agree / Disagree
Position	I completely disagree.
Ideas from Idea Bank (Part 3)	Technology and Communication · Technology, Society and Social Media
Structure	Agree/Disagree guide: Opinion + 2 ideas → BP1 Idea 1 (P E E X L) → BP2 Idea 2 (P E X R L) → Opinion + 2 ideas in new words
Reused from Idea Bank	3 sentences (highlighted)
Word count	Intro 45 · BP1 116 · BP2 116 · Conclusion 38 · **Total 315**

Introduction · 45 words

It is sometimes claimed that, because more people now use the internet and text messages, talking to each other in person will soon disappear. I completely disagree with this view because online messages are often shallow and many important events still require people to meet.

Body Paragraph 1 · 116 words

Point The main reason why I disagree with this idea is that online messages cannot provide the depth of a real meeting. Explain This is

because, although people may communicate more often, their conversations are often short and shallow, and they cannot replace the trust and warmth of real contact. Explain Humans also need to **read body language** and hear a friend's voice; as a result, strong relationships are still built mainly in person. Example For example, after long periods of online classes, most students were eager to return to school to see their friends, and this showed how much they had missed real contact. Link Therefore, people will continue to choose personal contact whenever a relationship truly matters to them.

Body Paragraph 2 · 116 words

Point Another important reason for my disagreement is that many important events still require people to meet in person. Explain When people attend a wedding, a job interview or a medical consultation, they need to be physically present, because trust and care are difficult to show through a screen. Example For instance, a doctor who examines a patient in a clinic can notice signs of illness that a text message could never show, which can lead to safer treatment. Response Although some people argue that many people now prefer sending a message to having a conversation, this habit is used mainly for quick and everyday matters. Link Consequently, digital tools will support face-to-face communication in the future instead of replacing it.

Conclusion · 38 words

In conclusion, I firmly believe that talking in person will remain a normal part of life, however popular messaging becomes. Digital

contact lacks the warmth of real meetings, and major life events will always bring people together physically.

12. COM-11 — Communicating through technology

More and more businesses as well as individuals are choosing to communicate either professionally or socially using technology rather than face to face. Discuss the advantages and disadvantages of using technology for communicating.

Essay type	Advantages vs Disadvantages — Type 1 (discuss, no opinion)
Position	No opinion is asked for, so there is no opinion or plan sentence; both sides are discussed in balance.
Ideas from Idea Bank (Part 3)	Technology and Communication · Technology, Business and the Economy
Structure	Adv/Disadv guide: Although-intro → BP1 advantages (7 sentences) → BP2 disadvantages (7 sentences) → While-conclusion
Reused from Idea Bank	5 sentences (highlighted)
Word count	Intro 35 · BP1 134 · BP2 134 · Conclusion 34 · **Total 337**

Introduction · 35 words

Today, many companies and individuals communicate through technology rather than meeting in person. Although this can cause misunderstandings and weaken face-to-face skills, it also saves time and money and keeps people connected across long distances.

Body Paragraph 1 · 134 words

Topic There is little doubt that digital communication offers considerable advantages to businesses and individuals. Point To begin with, business meetings increasingly take place online, which saves time and travel costs. Explain This is because managers no longer need to fly between cities, so decisions can be made in hours, not weeks. Example For example, a garment exporter in Dhaka can now meet European buyers by video call instead of flying abroad, which greatly reduces costs. Point In addition, for individuals, smartphones, messaging apps, social media and video calls allow people to **stay in touch instantly** and almost free of charge. Explain As a result, families stay close across borders, which can reduce loneliness and homesickness, especially for migrants and elderly people who live alone. Summary Overall, technology makes working life and personal relationships faster, cheaper and less limited by distance.

Body Paragraph 2 · 134 words

Topic On the other hand, it cannot be denied that digital communication also has some drawbacks. Point Firstly, many people experience misunderstandings when they communicate only through short messages. Explain Without facial expressions and tone of voice, a message can easily sound rude; as a result, conflicts may arise at work or between friends. Example For instance, a manager who sends a short email to a colleague may seem angry, which can damage their working relationship. Point Secondly, the **decline of face-to-face interaction** can be a serious problem, as many people now prefer sending a message to having a conversation. Explain If young people

rarely talk in person, they may not develop the confidence to speak, listen and **read body language** and, consequently, struggle in interviews. Summary Overall, these communication problems can weaken relationships both at work and in private life.

Conclusion · 34 words

In conclusion, communicating through screens has become normal in business and private life. While it may cause misunderstandings and weaken people's social skills, it saves time and money and keeps families close across distances.

13. COM-13 — International communication online

Some people think that being able to communicate with others online is breaking down geographical barriers and enabling people who would normally never have the chance to meet to communicate. What are the advantages of international communication online? Are there any disadvantages to this?

Essay type	Advantages vs Disadvantages — Type 1 (discuss, no opinion)
Position	No opinion is asked for, so there is no opinion or plan sentence; both sides are discussed in balance.
Ideas from Idea Bank (Part 3)	Technology and Communication · Technology and Culture · Technology, Privacy and Security
Structure	Adv/Disadv guide: Although-intro → BP1 advantages (7 sentences) → BP2 disadvantages (7 sentences) → While-conclusion
Reused from Idea Bank	4 sentences (highlighted)
Word count	Intro 36 · BP1 132 · BP2 133 · Conclusion 35 · **Total 336**

Introduction · 36 words

Online communication now allows people from different countries, who would otherwise never meet, to talk freely. Although this can lead to cultural misunderstandings and **online fraud**, it also builds international friendships and creates new learning opportunities.

Body Paragraph 1 · 132 words

Topic There is little doubt that international online communication offers considerable advantages to ordinary people. Point To begin with, the most significant benefit is that friendships are no longer limited by geography. Explain This is because people can exchange ideas, learn about each other's cultures and build international friendships through social media and video calls. Example For example, a Bangladeshi student who chats weekly with a partner in Canada improves her English, and she learns about Canadian life. Point In addition, online communication not only connects friends but also allows teams in different countries to work together without expensive travel. Explain As a result of this cooperation, small firms can find foreign partners and skilled workers abroad, which creates new business opportunities. Summary Overall, connecting with people across borders broadens minds and opens new doors in study and work.

Body Paragraph 2 · 133 words

Topic On the other hand, it cannot be denied that international online communication also has some drawbacks. Point Firstly, many users experience misunderstandings when they talk with people from different cultures. Explain Without shared customs or a common first language, a joke can easily sound offensive; as a result, friendships may end in arguments. Example For instance, a young person who uses informal slang in a chat with a Japanese partner may seem rude, which can upset the partner. Point Secondly, **online fraud** can be a serious danger, as criminals send fake emails and messages that look

as if they come from a bank. Explain If people trust a stranger they have only met online, they may share personal details and, consequently, lose their savings. Summary Overall, these cultural and safety risks can make online contact with strangers abroad stressful.

Conclusion · 35 words

In conclusion, the internet now lets people talk to anyone in the world. While such contact may lead to misunderstandings and scams, it builds friendships across borders and creates chances to learn and work together.

14. COM-14 — Online communication and loneliness

With the development of online communication, people will never be alone and will always be able to make new friends. To what extent do you agree?

Essay type	Agree / Disagree
Position	I completely disagree.
Ideas from Idea Bank (Part 3)	Technology, Society and Social Media · Technology and Communication
Structure	Agree/Disagree guide: Opinion + 2 ideas → BP1 Idea 1 (P E E X L) → BP2 Idea 2 (P E X R L) → Opinion + 2 ideas in new words
Reused from Idea Bank	4 sentences (highlighted)
Word count	Intro 45 · BP1 110 · BP2 114 · Conclusion 37 · **Total 306**

Introduction · 45 words

It is often argued that the growth of online communication means that nobody will ever feel lonely and that finding new friends will always be easy. I completely disagree with this view because online contact cannot replace real companionship and online friendships are often weak.

Body Paragraph 1 · 110 words

Point The main reason why I disagree with this idea is that online contact cannot fully replace real companionship. Explain This is

because, although people have hundreds of online "friends", some feel **more isolated** than ever. Explain Users constantly see carefully edited photos of other people's holidays, bodies and achievements; as a result, many begin to **compare themselves unfavourably** with others and feel even lonelier. Example For example, a young worker who chats online every evening may see a friend's holiday photos and feel that their own life is dull, and this can leave them feeling even more alone. Link Therefore, a busy online life does not mean that a person is no longer alone.

Body Paragraph 2 · 114 words

Point Another important reason for my disagreement is that friendships made online are often weak. Explain When people know each other only through a screen, they may not be there to help in a crisis, such as an illness or an accident. Example For instance, a teenager with many followers may still feel lonely if nobody visits them when they are sick, which shows that many contacts do not equal true friendship. Response Although some people argue that shy people, in particular, may find it easier to start a conversation online, a first conversation does not always grow into a lasting relationship. Link Consequently, making contacts online does not guarantee new friends whom a person can truly depend on.

Conclusion · 37 words

In conclusion, I firmly believe that internet communication cannot end loneliness or guarantee genuine friends. Messages and video

chats do not match the presence of another person, and many web relationships are too fragile to offer support.

15. COM-15 — Texting and the future of grammar

Communication through text messaging and other instant forms of online communication is short and basic. Some people think this will be the death of grammar and spelling. Do you agree or disagree?

Essay type	Agree / Disagree
Position	I completely disagree.
Ideas from Idea Bank (Part 3)	Technology and Communication · Technology and Education
Structure	Agree/Disagree guide: Opinion + 2 ideas → BP1 Idea 1 (P E E X L) → BP2 Idea 2 (P E X R L) → Opinion + 2 ideas in new words
Reused from Idea Bank	3 sentences (highlighted)
Word count	Intro 45 · BP1 118 · BP2 114 · Conclusion 36 · **Total 313**

Introduction · 45 words

It is often argued that the short, simple language of text messages and online chats will eventually destroy correct grammar and spelling. I completely disagree with this view because people can easily switch between informal and formal writing and schools continue to teach standard language.

Body Paragraph 1 · 118 words

Point The main reason why I disagree with this idea is that people naturally use different styles of language for different situations.

Explain This is because people simply switch between informal and formal styles, as they have always done, just as they speak differently to friends and to employers. Explain Most young people know that text messages and social media posts are usually brief and informal; as a result, they write very differently in a job application. Example For example, a student who texts in short forms all day can still write a well-organised essay in class, and this shows that the two styles do not have to mix. Link Therefore, texting simply adds a new informal style without destroying the standard language.

Body Paragraph 2 · 114 words

Point Another important reason for my disagreement is that formal writing is still taught and required. Explain When students enter schools, universities or workplaces, they must produce essays, reports and emails with correct grammar and spelling, so they have a strong reason to keep these skills. Example For instance, a job applicant who wants to impress an employer will check every word of their application carefully, which shows that accuracy still matters in real life. Response Although some people argue that students bring these habits into their academic writing, teachers can correct such mistakes easily through regular practice and feedback. Link Consequently, good grammar and spelling will survive for as long as education and employment continue to demand them.

Conclusion · 36 words

In conclusion, I firmly believe that instant messaging will not bring an end to accurate grammar and spelling. People clearly understand

which style suits each situation, and education and employers will continue to expect careful writing.

16. CRI-01 — Is technology reducing crime?

The crime rate nowadays is decreasing compared to the past due to advanced technology which can prevent and solve crime. Do you agree or disagree?

Essay type	Agree / Disagree
Position	I completely disagree.
Ideas from Idea Bank (Part 3)	Technology, Privacy and Security · Technology and Government
Structure	Agree/Disagree guide: Opinion + 2 ideas → BP1 Idea 1 (P E E X L) → BP2 Idea 2 (P E X R L) → Opinion + 2 ideas in new words
Reused from Idea Bank	5 sentences (highlighted)
Word count	Intro 44 · BP1 120 · BP2 111 · Conclusion 41 · **Total 316**

Introduction · 44 words

It is often argued that crime is lower today than in the past because advanced technology helps to prevent and solve it. I completely disagree with this view because technology has created new types of crime and online criminals are very difficult to catch.

Body Paragraph 1 · 120 words

Point The main reason why I disagree with this idea is that technology has created new types of crime. Explain This is because **online fraud** and hacking are increasing rapidly as more people manage their

money through the internet. Explain Criminals send fake emails and messages that look as if they come from a bank, encouraging people to share their passwords; as a result, a single click on a dangerous link can lead to the loss of a person's savings. Example For example, a retired teacher who answers a fake bank message may lose their pension in a few minutes, and this crime can happen without any thief entering the house. Link Therefore, crime has simply moved online and changed its form instead of falling.

Body Paragraph 2 · 111 words

Point Another important reason for my disagreement is that online criminals are very difficult to catch. Explain When a crime is committed through the internet, police face a serious problem, because online criminals often operate from other countries and can hide their identity. Example For instance, a hacker who robs a family in Dhaka from another country under a false name may never be found, which leaves the victim without justice. Response Although some people argue that CCTV cameras, mobile phone records and DNA databases have helped to identify criminals, these tools are useful mainly for street crimes instead of crimes committed online. Link Consequently, technology cannot be given credit for a general fall in crime.

Conclusion · 41 words

In conclusion, I firmly believe that modern technology has not made crime less common than it was in the past. It has opened the door to

digital offences such as fraud, and it also allows offenders to hide across national borders.

17. CRI-15 — Tackling internet crime

Internet crime is increasing rapidly as more and more people are using the internet to make financial transactions. What can be done to tackle this problem?

Essay type	Solutions only (Cause/Problem + Solution guide, Section 14)
Position	No opinion is asked for. Banks and governments should strengthen online security, and individuals should learn safe habits.
Ideas from Idea Bank (Part 3)	Technology, Privacy and Security (the Crime sheet has another answer to this question)
Structure	Cause/Problem + Solution guide, Section 14: both answers in one sentence → BP1 Solution 1 (N E E X L) → BP2 Solution 2 (N E E X L) → Same ideas in new words, no opinion
Reused from Idea Bank	5 sentences (highlighted)
Word count	Intro 34 · BP1 95 · BP2 107 · Conclusion 32 · **Total 268**

Introduction · 34 words

Online fraud and hacking are increasing rapidly as more people manage their money through the internet. Banks and governments can tackle this by improving security, and individuals can help by learning safe online habits.

Body Paragraph 1 · 95 words

Solution The most effective solution is for banks and governments to make online payments much harder to attack. Explain Hackers can steal financial data within seconds; therefore, banks must invest heavily in cybersecurity. Explain Banks use computer systems to detect unusual payments that might be fraud, and they can block suspicious transactions before any money is lost. Example For example, if a criminal tries to move a customer's savings to a foreign account at midnight, the bank's system can stop the payment and warn the customer immediately. Link Consequently, these measures make it much harder for online criminals to succeed.

Body Paragraph 2 · 107 words

Solution In addition, individuals could protect themselves by learning a few safe habits. Explain Criminals send fake emails and messages that look as if they come from a bank, encouraging people to share their passwords, so users should never share PINs or one-time codes. Explain Individuals also have a role to play: using strong passwords, turning on two-step verification and avoiding suspicious links can greatly **reduce the risk of online fraud**. Example For instance, an elderly woman who has turned on two-step verification will keep her account safe even if a criminal steals her password, because the thief cannot receive the code. Link Consequently, well-informed users would give criminals far fewer victims.

Conclusion · 32 words

In conclusion, internet crime can be reduced if banks and governments strengthen online security. Careful habits among

ordinary users, such as protecting passwords and codes, would also make online payments much safer.

18. BUS-02 — Online business meetings

More and more business meetings are taking place online. What are the advantages and disadvantages of this trend?

Essay type	Advantages vs Disadvantages — Type 1 (discuss, no opinion)
Position	No opinion is asked for, so there is no opinion or plan sentence; both sides are discussed in balance.
Ideas from Idea Bank (Part 3)	Technology, Business and the Economy · Technology and the Environment · Technology and Communication
Structure	Adv/Disadv guide: Although-intro → BP1 advantages (7 sentences) → BP2 disadvantages (7 sentences) → While-conclusion
Reused from Idea Bank	2 sentences (highlighted)
Word count	Intro 36 · BP1 135 · BP2 131 · Conclusion 33 · **Total 335**

Introduction · 36 words

More and more business meetings are now held online instead of in offices. Although online meetings can weaken trust and are often disrupted by technical problems, they also save companies time and money and reduce travel.

Body Paragraph 1 · 135 words

Topic There is little doubt that online meetings offer considerable advantages to companies and their employees. Point To begin with,

the most significant benefit is that online meetings can replace some business travel, which reduces flights and fuel use. Explain This is because employees no longer waste hours travelling between cities or waiting at airports. Example For example, a sales team that once flew to Chittagong every month can now hold the same meeting by video, which saves time and fuel. Point In addition, online meetings not only save money but also make it easy for companies to work with partners in other countries. Explain As a result of this wider reach, even small firms can find foreign customers and skilled workers abroad, which helps them grow. Summary Overall, holding meetings online makes businesses more efficient, more international and more environmentally friendly.

Body Paragraph 2 · 131 words

Topic On the other hand, it cannot be denied that online meetings also have some drawbacks. Point Firstly, many companies find it harder to build trust with new clients through a screen. Explain Without body language or informal chat, online conversations are often short and shallow; as a result, important deals may be lost. Example For instance, a foreign buyer who has never met a supplier in person may prefer a competitor he has visited, which means a lost contract. Point Secondly, technical problems can be a serious obstacle, as poor internet connections often interrupt important discussions. Explain If the video keeps freezing during a presentation, participants may lose concentration and, consequently, the meeting may fail to reach any decision. Summary Overall, these relationship and technical problems can make online meetings less effective than meeting face to face.

Conclusion · 33 words

In conclusion, video calls have replaced many traditional business meetings. While they may weaken trust between partners and be disrupted by poor connections, they save time and money and help firms work internationally.

19. BUS-08 — Online shopping

An increasing number of people are buying what they need online. What are the advantages and disadvantages of shopping online for both individuals and companies?

Essay type	Advantages vs Disadvantages — Type 1 (discuss, no opinion; individuals and companies)
Position	No opinion is asked for, so there is no opinion or plan sentence. Each body paragraph gives one point for individuals and one for companies.
Ideas from Idea Bank (Part 3)	Technology, Business and the Economy · Technology, Privacy and Security · Technology and Modern Lifestyle
Structure	Adv/Disadv guide: Although-intro → BP1 advantages (7 sentences) → BP2 disadvantages (7 sentences) → While-conclusion
Reused from Idea Bank	4 sentences (highlighted)
Word count	Intro 34 · BP1 135 · BP2 133 · Conclusion 34 · **Total 336**

Introduction · 34 words

More and more people now shop online rather than in stores. Although online shopping can expose customers to fraud and harm local shops, it also offers convenience to shoppers and lower costs to firms.

Body Paragraph 1 · 135 words

Topic There is little doubt that online shopping offers considerable advantages to both customers and companies. Point To begin with, the most significant benefit for individuals is that they can buy goods without leaving home. Explain This is because they can compare prices, read reviews and order goods at any time of day, which saves both time and money. Example For example, a worker who compares phone prices online at night can order the cheapest one, and this saves a market trip. Point In addition, for companies, online selling not only **reduces operating costs** but also reaches customers far beyond the local area. Explain As a result, a small entrepreneur can open an online store or a social media page and sell products across the country. Summary Overall, e-commerce saves shoppers effort and gives businesses of every size a much larger market.

Body Paragraph 2 · 133 words

Topic On the other hand, it cannot be denied that online shopping also has some drawbacks. Point Firstly, many customers experience problems with quality and fraud when they buy from unknown sellers. Explain Without the chance to touch products, they cannot check what they are paying for; as a result, they may be cheated. Example For instance, a student who pays for a phone on a social media page may receive a fake model, which wastes his savings. Point Secondly, small shops face a serious threat, as they cannot match the prices and delivery speed of big online retailers. Explain If local shops continue to lose customers, many will close and, consequently, town centres can become empty, and communities

lose part of their character. Summary Overall, these consumer and business problems make online shopping risky for some buyers and communities.

Conclusion · 34 words

In conclusion, internet shopping has become part of everyday life. While it may expose shoppers to cheating and push small shops out of business, it offers convenience to customers and wider markets to sellers.
