Start How to Use This Workbook

Why your spelling goes wrong in Listening

You usually **hear** the word correctly. The mistake happens in the 2 seconds between hearing it and writing it. There are four main reasons:

1. **The weak vowel /ə/ (schwa).** In English, unstressed syllables are reduced to a short, lazy /ə/ sound. import**ant** and differ**ent** both end in /ənt/, and perform**ance** and exist**ence** both end in /əns/. **Your ear cannot tell you the letter**, so you need a rule, a word family or a memory trick instead.
2. **Letters that are written but not pronounced:** silent letters (recei**p**t, We**d**nesday) and double consonants (a**cc**o**mm**odation), which sound exactly like single ones.
3. **Plural endings that disappear in fast speech.** In "*two desks*" the final /s/ is almost swallowed, and in "*tourists stay*" the two /s/ sounds merge into one. You hear one book but the answer is *books*.
4. **Words that sound the same but are spelt differently:** *patients / patience*, *stationery / stationary*, *weather / whether*.

This workbook gives you a **rule, a word family or a memory trick** for each of these. With those, you stop guessing.

The 12 problems this workbook fixes

#	Problem	Example	Your own mistake ★	Fixed on
1	-ant or -ent	import**ant** / differ**ent**	elegent → **elegant**, convienont → **convenient**	Day 1
2	-ance or -ence	perform**ance** / exist**ence**	santance → **sentence**, experioence → **experience**	Day 2
3	-able or -ible	avail**able** / poss**ible**	valueable → **valuable**, reposibility → **responsibility**	Day 3
4	-ary or -ery	libr**ary** / station**ery**	entre → **entry**	Day 4
5	-tion or -sion	informa**tion** / deci**sion**	conculation → **conclusion**	Day 4
6	Similar vowels	sep**a**rate, d**e**finitely	hasitate → **hesitate**, pession → **passion**	Day 5
7	Double consonants	a**cc**o**mm**odation	Mamals → **mammals**, footbal → **football**	Day 5
8	Silent letters	recei**p**t, We**d**nesday	rythm → **rhythm**	Day 5
9	Singular or plural	one *sheep*, two *sheep*	mammals (plural -s missed)	Day 7
10	Countable or uncountable	*information* (never *informations*)	schoolworks → **schoolwork**	Day 7
11	Extra or missing -s / -es	*a ten-minute walk*, *potatoes*	teams player → **team player**	Day 7
12	Sound-alike words	patients / patience	rate → **rare**, carrer → **career**	Days 2, 5, 7

★ = a word you have actually misspelled (from your Spelling Fix List). These are marked ★ wherever they appear in the workbook.

IELTS Listening spelling rules you must know

> ⚠️ **A wrongly spelt answer scores zero**, even if you heard it perfectly. A missing or extra plural **-s** also scores zero.

- **British or American spelling** is accepted (*colour* or *color*). Choose one and stay consistent. This workbook uses **British** spelling.
- **Capital letters** don't matter on the answer sheet. On paper, writing every answer in CAPITALS is allowed and can make your letters clearer.
- A **hyphenated word** counts as one word: *ten-minute* = 1 word.
- **Numbers** can be written as figures: *15* is safer than *fifteen*.
- **Words given in the question are spelt correctly for you.** If the answer word is printed in the question paper, copy it from there.
- When you **transfer answers** (paper test: 10 minutes; computer test: 2 minutes to check), check every answer letter by letter, and check its ending: **-s, -es, -ed, -ing, -ly**.

Your 7-day plan (about 75 minutes a day)

The daily routine

Step	Time	What to do
1. Learn	20 min	Read the rules. Say every word in the table **aloud, syllable by syllable**.
2. Look-Say-Cover-Write-Check	15 min	For each word you don't know: look, say, cover, write from memory, check letter by letter.
3. Exercises	20 min	Do the written exercises **without looking back**. Mark them with the Answer Key.
4. Dictation	10 min	Play the day's audio file. Write each word once. Mark it.
5. Assessment	10 min	Do the daily assessment. Record your score in the tracker at the back.

Audio files are in `Listening/Spelling Workbook/audio/` (Day1_Dictation.wav … Final_Test_Dictation.wav). Each word is read with a short sentence, and then there is a pause for you to write. Don't look at the word list while you listen. If you have no audio, ask a friend to read the dictation script from the Answer Key.

Spaced review: test every word you got wrong again **after 1 day, 3 days and 7 days**. A word is learnt when you spell it correctly in all three tests. Write your wrong words in the **Error Log** at the back of this workbook, and add any Listening mistakes to section 8 of your Spelling Fix List.

Day 1 -ANT vs -ENT

Learning objectives

By the end of today you will be able to:

- spell **43 common -ant / -ent words** used in IELTS Listening;
- choose the ending using **5 rules** instead of guessing;
- turn every adjective into its noun (**important → importance**), which prepares you for Day 2;
- understand why **pronunciation alone cannot tell you the ending**.

Why your ear can't help you

⚠️ **-ant and -ent sound exactly the same.** Both are unstressed, so both are pronounced /ənt/ (or just /nt/).

Word	IPA	Ending you hear	Ending you write
pleas**ant**	/ˈpleznt/	/nt/	**-ant**
pres**ent**	/ˈpreznt/	/nt/	**-ent**
dist**ant**	/ˈdɪstənt/	/ənt/	**-ant**
consist**ent**	/kənˈsɪstənt/	/ənt/	**-ent**
import**ant**	/ɪmˈpɔːtnt/	/nt/	**-ant**
pat**ient**	/ˈpeɪʃnt/	/nt/	**-ent**

Pleasant and *present* almost rhyme, but one is -ant and the other is -ent. So **you need a rule, a word family or a memory trick.**

The 5 rules

Rule 1: Use the word family (the most reliable rule).
If you know a related word ending in **-ance, -ancy or -ation**, write **-ant**. If you know one ending in **-ence or -ency**, write **-ent**.

You know…	so you write…	You know…	so you write…
import**ance**	import**ant**	differ**ence**	differ**ent**
toler**ation**	toler**ant**	frequ**ency**	frequ**ent**
vac**ancy**	vac**ant**	efficiency	efficient
hesit**ation**	hesit**ant**	intellig**ence**	intellig**ent**

Rule 2: Verbs ending in -ate or -y usually give -ant.
toler**ate** → toler**ant** · domin**ate** → domin**ant** · hesit**ate** → hesit**ant** · particip**ate** → particip**ant** · migr**ate** → migr**ant** · vac**ate** → vac**ant**

appl**y** → applic**ant** · rel**y** → reli**ant** · compl**y** → compli**ant** · def**y** → defi**ant**

Rule 3: A hard c or g sound before the ending gives -ant; a soft c or g sound gives -ent.
English **c** and **g** sound soft (/s/ and /dʒ/) before **e**, and hard (/k/ and /g/) before **a**. The ending keeps the sound you hear.

Hard sound → -ant	Soft sound → -ent
signifi**c**ant /k/	re**c**ent /s/
appli**c**ant /k/	inno**c**ent /s/
va**c**ant /k/	de**c**ent /s/
ele**g**ant /g/ ★	intelli**g**ent /dʒ/
arro**g**ant /g/	ur**g**ent /dʒ/
extrava**g**ant /g/	dili**g**ent /dʒ/ ★

💡 *Significent* would be pronounced "signifi-SENT". The **a** keeps the /k/ sound.

Rule 4: After *qu* and after *-id-*, write -ent.
fre**qu**ent · conse**qu**ent · subse**qu**ent · elo**qu**ent

confi**d**ent · evi**d**ent · resi**d**ent · presi**d**ent · acci**d**ent · inci**d**ent

Rule 5: Verbs ending in *-ist* give -ent, except two.
consist → consist**ent** · insist → insist**ent** · persist → persist**ent** · exist → (non-)exist**ent**

⚠️ **Exceptions:** ass**ist** → assist**ant**, res**ist** → resist**ant**.

💡 "*The **A**ssistant and the **R**esistant soldier are **A**nts.*"

Important exceptions and traps

- **People nouns are mixed.** Many end in -ant (*assistant, applicant, participant, accountant, consultant, tenant, servant, inhabitant, immigrant, attendant*), but some end in -ent (*student, resident, president, agent, opponent, client*). Learn these as a list.
- **Same sound, different word (British English):**
- **dependant** (*n*, a person who depends on you, e.g. a child) / **dependent** (*adj*). *I have two dependants. She is dependent on her parents.*
- **confidant** (*n*, a person you tell secrets to) / **confident** (*adj*, sure of yourself).
- **currant** (*n*, a small dried fruit) / **current** (*adj*, happening now; *n*, a flow of water or electricity).
- **One word, two pronunciations: present** /ˈpreznt/ (*adj*, here now; *n*, a gift) and **present** /prɪˈzent/ (*v*, to show). The spelling stays the same.

Day 2 -ANCE vs -ENCE

Learning objectives

By the end of today you will be able to:

- spell **42 common -ance / -ence nouns**;
- use yesterday's adjectives to choose the ending (**different** → **difference**);
- choose the ending from the **verb** (**appear** → **appearance**, **exist** → **existence**);
- tell apart sound-alike pairs that are a big IELTS trap: **patience / patients**, **assistance / assistants**.

Why your ear can't help you (again)

⚠️ Unstressed **-ance** and **-ence** are both pronounced /əns/ or /ns/. The difference is only on paper.

Word	IPA	Word	IPA
dist**ance**	/ˈdɪstəns/	exist**ence**	/ɪgˈzɪstəns/
guid**ance**	/ˈgaɪdns/	evid**ence**	/ˈevɪdəns/
perform**ance**	/pəˈfɔːməns/	refer**ence**	/ˈrefrəns/

When the ending is stressed, you *can* hear the a: adv**ance** /ədˈvɑːns/, enh**ance** /ɪnˈhɑːns/, rom**ance** /rəʊˈmæns/, fin**ance** /ˈfaɪnæns/. These are easy. The difficult ones are the unstressed endings.

The 5 rules

Rule 1: Follow the Day 1 family. The letter never changes inside a family.

- -**ant** → -**ance**: import**ant** → import**ance**, dist**ant** → dist**ance**, signific**ant** → signific**ance**
- -**ent** → -**ence**: differ**ent** → differ**ence**, confid**ent** → confid**ence**, independ**ent** → independ**ence**

Rule 2: Learn the -ence verb groups. Most other verbs take -ance.

Verb ends in…	Noun ends in	Examples
stressed **-er / -ur**	**-ence**	refe**r** → reference · prefe**r** → preference · confe**r** → conference · occ**ur** → occurrence
-ist	**-ence**	ex**ist** → existence · ins**ist** → insistence · pers**ist** → persistence ⚠️ *but* assist → assist**ance**, resist → resist**ance**
-ere	**-ence**	interf**ere** → interference · adh**ere** → adherence
-ide	**-ence**	res**ide** → residence · conf**ide** → confidence · coinc**ide** → coincidence ⚠️ *but* guide → guid**ance**
-ge (soft)	**-ence**	emer**ge** → emergence · conver**ge** → convergence
most other verbs	**-ance**	appear → appear**ance** · perform → perform**ance** · attend → attend**ance** · accept → accept**ance** · allow → allow**ance** · insure → insur**ance** · avoid → avoid**ance** · disturb → disturb**ance** · annoy → annoy**ance**

Rule 3: Hard c/g → -ance; soft c/g → -ence (same as Day 1).
signific**a**nce, ele**g**ance, extrava**g**ance (hard) · inno**c**ence, intelli**g**ence, ne**g**ligence, dili**g**ence (soft).

Rule 4: -iance comes only from verbs ending in -y.

Every other "-ee-ens" ending is **-ience**: exper**ience** ★, conven**ience**, aud**ience**, sc**ience**, pat**ience**, obed**ience**.

Day 3 -ABLE vs -IBLE

Learning objectives

By the end of today you will be able to:

- spell **42 common -able / -ible adjectives**;
- use the **"whole word" test** to choose the ending;
- add the ending correctly: drop the **-e** (*value* → *valuable* ★), keep the **-e** (*notice* → *noticeable*), change **y** → **i** (*rely* → *reliable*), or double the consonant (*forget* → *forgettable*);
- build nouns (**-ability / -ibility**), adverbs (**-ably / -ibly**) and opposites (**un-, in-, im-, il-, ir-**).

Pronunciation

⚠️ As a suffix, both **-able** and **-ible** are pronounced /əbl/: avail**able** /əˈveɪləbl/, poss**ible** /ˈpɒsəbl/. The word *able* on its own is /ˈeɪbl/, but you never hear that sound inside a longer word.

Some -able words also **lose a syllable in speech**, so you have to write letters you don't hear:

Word	You hear	You write
comfortable	/ˈkʌmf-tə-bl/ (3 syllables)	com-**for**-ta-ble (4 syllables)
reasonable	/ˈriːz-nə-bl/	rea-**so**-na-ble
valuable ★	/ˈvæl-jə-bl/	val-**u**-a-ble
vegetable	/ˈveʤ-tə-bl/	veg-**e**-ta-ble

💡 **Say it slowly in your head as it is *spelt*:** *com-FOR-ta-ble*, *veg-E-ta-ble*.

The 4 rules

Rule 1: The whole-word test (works about 80% of the time).
Cover the ending. If **a complete English word** is left, use **-able**. If what is left is **not a word**, use **-ible**.

Whole word → -ABLE	Not a word → -IBLE
comfortable, **reason**able	**poss**ible (*poss* ✗)
acceptable, **afford**able	**vis**ible (*vis* ✗)
enjoyable, **remark**able	**terr**ible, **horr**ible
understandable, **predict**able	**ed**ible, **aud**ible
sustainable, **renew**able	**feas**ible, **plaus**ible
dependable, **consider**able	**compat**ible, **tang**ible

⚠️ **Exceptions, whole word + -ible:** access → access**ible**, flex → flex**ible**, sense → sens**ible**, reverse → revers**ible**, convert → convert**ible**, response → respons**ible**, resist → resist**ible**, digest → digest**ible**.

⚠️ **Exceptions, not a word + -able:** cap**able**, prob**able**, dur**able**, vulner**able**, inevit**able**, vi**able**.

Rule 2: The noun test. If the related noun ends in **-ation**, use **-able**. If it ends in **-ion** without the *a* (**-sion, -ssion, -tion**), use **-ible**.

-ATION noun → -ABLE	-ION noun → -IBLE
tole**ration** → tolerable	vi**sion** → visible
applic**ation** → applicable	permi**ssion** → permissible
navig**ation** → navigable	divi**sion** → divisible
ador**ation** → adorable	comprehen**sion** → comprehensible
consider**ation** → considerable	conver**sion** → convertible
irrit**ation** → irritable	collec**tion** → collectible

Rule 3: Hard c/g → -able, soft c/g → -ible (the same idea as Days 1 and 2). appl**ic**able, navi**g**able, am**ic**able (hard) · eli**g**ible, le**g**ible, tan**g**ible, invin**c**ible, for**c**ible (soft).

⚠️ To keep a soft sound before *-able*, English **keeps the e**: noti**ce**able, mana**ge**able, chan**ge**able, knowled**ge**able, repla**ce**able.

Rule 4: When in doubt, choose -able.
There are about **five times more -able words**, and **all new words use -able**: download**able**, recycl**able**, do**able**, like**able**.

Spelling changes when you add -able / -ible

Change	Rule	Examples
Drop the silent e	base ends in *-e*	valu**e** → valuable ★ · lov**e** → lovable · us**e** → usable · believ**e** → believable · desir**e** → desirable · measur**e** → measurable · revers**e** → reversible · sens**e** → sensible
Keep the e	after soft **ce / ge**, and after **ee**	not**ice** → noticeable · manag**e** → manageable · chang**e** → changeable · knowledg**e** → knowledgeable · agr**ee** → agreeable
y → i	consonant + *y*	rel**y** → reliable · den**y** → deniable · var**y** → variable · justif**y** → justifiable · identif**y** → identifiable
Keep the y	vowel + *y*	enj**oy** → enjoyable · p**ay** → payable · empl**oy** → employable
Double the consonant	short stressed final syllable	forg**et** → forgettable · reg**ret** → regrettable · contr**ol** → controllable
⚠️ **Trap**	stress moves to the front	pref**er** → **pre**ferable (one *r*)

Day 4 -ARY vs -ERY and Other Confusing Endings

Learning objectives

By the end of today you will be able to:

- spell **40 common -ary / -ery words**, plus the **-ory** and **-ry** words that sound the same;
- tell **stationary** from **stationery**, and **diary** from **dairy**;
- use **9 mini-lessons** on other endings that cost marks in IELTS: **-tion/-sion · -al/-el/-le · -ic/-ical · -cial/-tial · -ous/-ious · -ful/-fully · -or/-our/-er/-ar · -er/-re · -ise/-ize**.

💡 **How to study today:** Part A is the main lesson. Treat Part B as 9 short lessons of about 5 minutes each. Read the rule, say the examples aloud, and then do the matching exercise.

Part A: -ARY vs -ERY (vs -ORY and -RY)

Why your ear can't help you

All four endings are reduced to /əri/ or just /ri/. In British English, the vowel often **disappears completely**:

Word	IPA	Syllables you hear	Syllables you write
secretary	/ˈsekrətri/	3	sec-re-ta-ry (4)
dictionary	/ˈdɪkʃənri/	3	dic-tion-a-ry (4)
laboratory	/ləˈbɒrətri/	4	lab-or-a-to-ry (5)
stationery	/ˈsteɪʃənri/	3	sta-tion-e-ry (4)
library	/ˈlaɪbrəri/ or /ˈlaɪbri/	2–3	li-bra-ry (3)

The 4 rules

Rule 1: -ary is the most common ending. Most adjectives (*necessary, ordinary, temporary, primary, voluntary*) and many nouns (*library, dictionary, salary, summary*) end in **-ary**. If you have no other clue, choose **-ary**.

Rule 2: -ery = a whole word + -(e)ry. If you can see a complete word you know, it's usually **-ery**.

Base word	-ERY word	Base word	-ERY word
bake	bak**ery**	deliver	deliver**y**
brew	brew**ery**	discover	discover**y**
machine	machin**ery**	recover	recover**y**
scene	scen**ery**	cook	cook**ery**
green	green**ery**	nurse	nurs**ery**
brave	brav**ery**	pot	pott**ery**
rob	robb**ery**	jewel	jewell**ery** (BrE)

⚠️ **Learn these as a group:** gall**ery**, batt**ery**, myst**ery**, surg**ery**, cemet**ery** (3 e's), lott**ery**, celery. They have no base word.

Rule 3: -ory usually has a related word with -or, -ion or -ive.
direct**or** → direct**ory** · access → access**ory** · satisfact**ion** → satisfact**ory** · compuls**ion** → compuls**ory** · observat**ion**

→ observat**ory** · invent**ion** → invent**ory**. Also learn: fact**ory**, hist**ory**, laborat**ory**, dormit**ory**, categ**ory**, territ**ory**, mem**ory**, the**ory**.

Rule 4: -ry with no vowel. If the base word ends in *-er* or *-t*, the vowel often disappears: ent**er** → **entry** ★, chemist → **chemistry**, poet → **poetry**, regist**er** → **registry**, minist**er** → **ministry**. Also **country**, **industry**, **pastry**.

Day 5 Double Consonants, Silent Letters and Vowel Confusion

Learning objectives

By the end of today you will be able to:

- spell **57 of the most-misspelt words in English**, many of which are IELTS Section 1 favourites (*accommodation, address, questionnaire, receipt, Wednesday*);
- use the **doubling rule** to decide between one and two consonants;
- remember where the **silent letters** are;
- choose between **ie/ei, ea/ee, ai/ay** and **ou/ow**;
- write **difficult consonant groups** (*ph, gh, ch, tch, dge, qu, sc*) and use **British spelling** consistently.

Part A: Double consonants

⚠️ **A double consonant sounds exactly like a single one.** *Comittee* and *committee* sound the same, so you have to remember the letters.

The doubling rule (adding -ed, -ing, -er, -ence)

Double the last consonant when **all three** of these are true:

1. the word ends in **one vowel + one consonant** (*begin, occur, plan, stop*);
2. the **last syllable is stressed** (be**GIN**, oc**CUR**; all one-syllable words count);
3. the suffix **starts with a vowel** (*-ed, -ing, -er, -ence, -able*).

Double ✅	Don't double ❌ (stress is not on the last syllable)
be**gin** → begi**nn**ing	**vi**sit → visi**t**ed
oc**cur** → occu**rr**ed, occu**rr**ence	**o**pen → ope**n**ing
re**fer** → refe**rr**ed	**lis**ten → liste**n**ing
pre**fer** → prefe**rr**ed	**of**fer → offe**r**ed
ad**mit** → admi**tt**ed	de**vel**op → develo**p**ed, develo**p**ment
plan → pla**nn**ing · stop → sto**pp**ed · swim → swi**mm**ing	**ben**efit → benefi**t**ed

⚠️ **British exception: a final -l after one vowel always doubles**, wherever the stress is: travel → trave**ll**ed, trave**ll**er · cancel → cance**ll**ed, cance**ll**ation · label → labe**ll**ed · model → mode**ll**ing · level → leve**ll**ed · marvel → marve**ll**ous · counsel → counse**ll**or. (American English uses one *l*. Pick one style.)

Add, don't drop: prefixes and -ly / -ness

When you add a prefix or -ly / -ness, **keep every letter** of both parts:

Part 1	Part 2	Word
dis	appear	di**s**appear (one s)
dis	satisfied	di**ss**atisfied (two s)
mis	spell	mi**ss**pell
un	necessary	u**nn**ecessary

Part 1	Part 2	Word
im / ir / il	mature / regular / legal	i**mm**ature / i**rr**egular / i**ll**egal
final / real / usual	ly	fina**ll**y / rea**ll**y / usua**ll**y

Learning objectives

By the end of today you will be able to:

- spell **120 high-frequency IELTS Listening words** in the 10 topic areas that appear again and again in Sections 1–4;
- recognise the **spelling trap** in each word (the ❌ column shows the usual mistake);
- link today's words to the **rules from Days 1–5**;

> 💡 **How to study 120 words in one day:** do **not** try to learn them all at once. Read one topic (12 words), **cover the Word column**, read the meaning, and write the word. Tick the words you got right. Then go to the next topic. At the end, go back **only** to the words you didn't tick.
>
> ⚠️ Words already taught on Days 1–5 are **not repeated** here. They are listed under each topic as **"Also from Days 1–5"**, so revise them too.

- recognise **33 nouns that are the same in the singular and the plural** (*sheep, species, aircraft*);
- never add **-s** to an **uncountable noun** (*information, equipment, accommodation, furniture*);
- write **compound adjectives** correctly (*a ten-minute walk*, not *a ten-minutes walk*).

⚠️ **In IELTS Listening, the number must be exactly right.** If the answer is *tickets* and you write *ticket*, you score **zero**. If the answer is *equipment* and you write *equipments*, you also score **zero**.

Part 1: Hearing plurals

The three sounds of the plural -s

Sound	When	Examples
/s/	after a voiceless sound (/p/, /t/, /k/, /f/, /θ/)	maps, students, books, chefs, months
/z/	after a voiced sound (vowels and /b/, /d/, /g/, /l/, /m/, /n/, /v/)	rooms, bags, fees, tables, hotels, cars
/ɪz/	after /s/, /z/, /ʃ/, /tʃ/, /dʒ/ (adds a syllable)	buses, classes, prizes, dishes, churches, pages, courses
/iːz/	Greek and Latin plurals of *-is* words	crises /ˈkraɪsiːz/, analyses /əˈnæləsiːz/, theses, bases /ˈbeɪsiːz/

Plurals that are hard to hear

Problem	Examples	What you hear
-sts, -sks, -sps (three consonants together)	tests, costs, lists, tourists, scientists, guests, desks, tasks, risks	the last /s/ is very short or seems to disappear
-ths, -cts, -pts	months, lengths, facts, insects, products, receipts, concepts	the /θ/ or /t/ disappears: "*monss*", "*facss*"
Plural + a word starting with s	*tourists stay, shops sell, bikes stolen*	the two /s/ sounds join into one
Plural + a word starting with a vowel	*books are, rooms in, cars on*	the /s/ or /z/ links to the next word: "*book-sare*"

💡 **So don't rely on your ear alone.** Use the **grammar clues** in the question to decide, and then use your ear to confirm.

Part 2: The grammar clues (your "number detector")

Plural clue → add -s	Singular clue → no -s	Uncountable clue → never -s
a number above one: *two, 25, several*	*a / an, one, a single, the only*	*much, a little, less*

Plural clue → add -s	Singular clue → no -s	Uncountable clue → never -s
many, a few, few, various, numerous	*each, every, another*	*an amount of, a great deal of*
a number of, a range of, a variety of, a selection of, a series of	*either, neither*	*a piece of, an item of*
both, these, those, all (the)	*this, that*	(*some, any, a lot of, most* can go with plural **or** uncountable nouns)
one of the …s, each of the …s	*per* (*£5 per person*)	singular verb after the gap: ___ *is provided*
plural verb after the gap: ___ *are / were / have*	singular verb: ___ *is / was / has*	
a pair of, dozens of, hundreds of		

⚠️ **Watch these two:**

- *a number of* students **are** … → plural noun (= *many*)
- *the number of* students **is** … → plural noun after *of*, singular verb (= *the amount*)

Compound adjectives: number + noun + noun → always singular

When a number and a noun come **before another noun**, the first noun **loses its -s** and you add a hyphen.

Phrase	Compound adjective
a walk of **ten minutes**	a **ten-minute** walk
a course that lasts **three days**	a **three-day** course
a flat with **two bedrooms**	a **two-bedroom** flat
a hotel with **five stars**	a **five-star** hotel
a child who is **seven years** old	a **seven-year-old** child
a note worth **twenty pounds**	a **twenty-pound** note
a report of **20 pages**	a **20-page** report

Nouns used as adjectives → usually singular

A noun that describes another noun usually has **no -s**: car park, bus stop, shoe shop, student card, ticket office, tooth**brush**, book club, team player ★ (not *teams player*), apple tree, phone number.

⚠️ **Exceptions** (these nouns are always plural, or the plural has a different meaning): **sports** centre, **clothes** shop, **savings** account, **sales** manager, **customs** officer, **arms** trade, **careers** advice, **goods** train.

Numbers and measurements

✅ Correct	❌ Wrong	Rule
two **hundred** students	two hundreds students	*hundred, thousand, million, dozen* have no -s after a number
hundreds of students	hundred of students	…but they take -s in *hundreds of, thousands of*
six **months**	six month	a plain number + noun → plural
a six-**month** course	a six-months course	a compound adjective → singular
fifty **per cent** / percent	fifty per cents	no -s on *per cent*
